

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 11, 2000 LB 480

I ask is that you give consideration to my sisters. And what do you say? Thumbs down, to hell with you, and that's what the conduct says, and that's why I see so much hypocrisy in religion and I have contempt for it. Let it come into play now. We're not even talking about money on this one. I hope we will vote to override.

SPEAKER KRISTENSEN: Senator Tyson.

SENATOR TYSON: Thank you, Mr. Speaker. Members of the body, the focus that Senator Schimek alluded to, I would submit to you, is already being taken care of. It's been mentioned several times on this floor that more than 80 percent of all assessing of health services in Nebraska is done by women now. Of course, a lot of...a good portion of that is because, especially as regards children, both male and female, the women, the mother is the person who primarily takes care of them during the day. I would offer to you that Health and Human Services is now doing everything called for in this bill, including coordinating. And to lay on another layer of directives, bureaucracy, advisors, counselors, call them what you will, obfuscates what they do. I think that while the organization, the reorganization may have had some ups and downs, I think that, at least from what I can see, that is becoming a smoother organization than it was before. I think that's certainly true in the area of mental health. I see no real purpose in this bill and I think that it's a worthy candidate to uphold the Governor's veto, and I ask that you join me in doing so. Thank you.

SPEAKER KRISTENSEN: Senator Wehrbein.

SENATOR WEHRBEIN: Thank you, Mr. President, members. I am not going to support the override, and I have never talked on this bill, although I have never voted for the bill, but I do feel obligated to tell Senator Schimek, if the override is successful, I believe we ought to have an A bill with it, and I will submit an A bill accordingly. I...I...as I look at the A bill, the \$90,000 and the \$77,000 that was vetoed out, I really believe that we're putting the Health and Human Services in quite a bind if that money is also not there for them. I realize that we may be subject to disagreement on that, but
